

**SP ENGG CORP**

Complete Engineering Solutions

**Engineering  
Excellence at  
Every step...**

## » SP ENGG CORP PVT LTD

**SP Engg-Corp Pvt. Ltd.** is a fast growing Engineering Company providing civil, structural, piping & mechanical design and detailed engineering services ensuring safety, accuracy and optimized solutions to achieve economy in various fields. In a period of eight years, the company has achieved remarkable success in establishing itself globally.

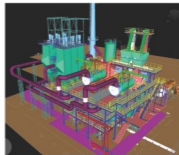

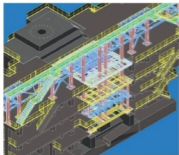

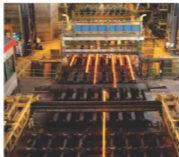

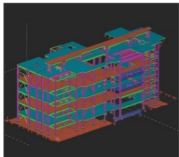

Our 500 plus structures designed & detailed by us for some of the leading companies in India and abroad and our credentials as an optimized design of any structure, amongst the reasons for us being considered the preferred partner for Industrial & Infrastructural projects.

**In keeping with our desire to be known as 'The Best Engineering Company', we distinguish ourselves with our:**

- Highly motivated engineering team with zero job attrition
- Innovative engineering solutions
- Client-conscious approach
- Quality systems and standards
- Safety and environmental considerations
- Commitment to cost and time schedule

**SP Engg-Corp Pvt. Ltd.** has a tradition of professional excellence and is fully committed to quality, safety, economy, health and environment, human right and sustainable development.

We SP Engg-Corp Pvt. Ltd. have **Professional Indemnity Insurance coverage of INR. 15 Crores. (2.5 Million US\$)** which makes SP Engg-Corp as a preferred partner than anyone else.

## » Our Expertise

### Civil & Structural, Piping & Mechanical Engineering.

Our team comprises of qualified engineers & designers having experience on highly Complex Architectural and Engineering projects in the following fields:

- Process Plants
- Power Plants
- Oil & Gas
- Refineries
- Chemical Plants
- Steel Plants
- Material handling structures
- Treatment Plants WTP, STP, TTP, etc.
- Sugar Plants & Distilleries.
- Commercial & Industrial Buildings
- Infrastructural Projects
- Public Buildings and many more...

Our Services cover complete Architectural, Civil & structural, Piping engineering with detailed Construction/Fabrication drawings. Our highly professional technical team has understanding of all international codes like BS, IS, ACI, AISC, ASCE, EC, API, AS, IBC, SABS, etc. Our experienced team has expertise in all international design & detailing software's like STAAD.Pro, Caesar, TEKLA, Cad worx, Revit structures, AutoCAD, etc.

Our team has very high expertise in Structures like Steel/RCC Chimneys, Boiler Supporting Structures, Dynamic analysis & design of Turbo Generator deck & its Foundation, Pressure vessel tanks as per IBR & ASME, Piping stress analysis for high pressure lines, etc.

We are developing a solid base in Oil & Gas projects like Offshore FPS, TLP and fixed platform as well as Onshore Chemical/Natural gas/LNG plants and Petrochemical/Petroleum.

## » PROJECT EXECUTED

- Complete Engineering from block layout to detailed engineering of civil, structural, ducting, pressure parts & piping (including Steam & IBR piping with stress analysis) for more than 100 clients for Industrial Boilers for THERMAX, for clients like M/s Nollen Group Pvt. Ltd. South Africa- CPMG 80, ITC Bangalore, ITC Ranjangaon, Hindustan Unilever Haridwar, TOSSEL Hosur, United Breweries, Reliance Ind Ltd., Serum Institute, Godrej Industries Ambernath, Unilever Philippines, Madhura Coats Ambasamudram, MCC PTA India Corp Pvt. Ltd., Jindal Polyesters Ltd. Welspun Ltd, Vapi, Bhabha Atomic Research Centre, Mumbai. Ocean India, Vishakhapatnam, Polyplex Corpn. Ltd, Delhi, Fujairah Oil Terminal Fzc, Bromine Compounds Limited, Ispael, Kellogg's India Pvt. Ltd. A.P., Myanmar Carsberg India Pvt Ltd., Al-Baha Company, Jordan and many more.....
- More than 25 Continuous casting machine supporting structures with all international codes for SMS Concast, Zurich, Switzerland. All these CCM's have been supplied throughout the world from USA to New-Zealand, UK, South Africa, China, etc.
- More than 100 boiler supporting structures for Bi-drum, Spent wash, CFBC, HRSG, Heat recovery boilers with all international codes for THERMAX, ISGEC, Hi-Tech, Lipi, etc.
- 500 MLD WTP Plant at Pune, Paravali
- Detailed engineering of entire plant for GAIL Vijaypur, Madhya Pradesh (125 TPH Gas fired boiler)
- Detailed engineering of co-generation plant for 50MW Power plant project for Raumphol BioPower, Thailand
- Detailed engineering of entire power plant of capacity 4MW including Turbine foundation, boiler structure, etc. for CIB OLAM, Congo, South Africa
- Design and Detailing for pipe racks Flare trestles & T Posts of around 6800 tonnage, Pile foundations for Hindustan Petroleum Corporation Ltd. Visakh Refinery
- Design of Continuous Casting machine (vertical caster) supporting steel structure (1600MT) for Timken, Ovio, USA
- Design of Continuous Casting machine supporting steel structure for Dong Bei Steel CCM II, China
- Design & Detailing of various units like pipe racks, Equipment Supporting platforms, Foundation designs etc. for Water Recovery Growth Project for SASOL, South Africa
- Architect, Civil and Structural Consultant for entire 3500 TCD Expandable to 5000 TCD Sugar plant & 20 MW Co-generation plant with 45KLPD distillery for Sovereign Sugars Ltd, Terdal, Karnataka & Shivshakti Sugars, Chikodi, Karnataka
- Architect, Civil and Structural Consultant for 100KLPD distillery for Hermes Distillery, Chikodi, Karnataka
- Structural Analysis & design of process structures inside battery limit pipe racks for Formosa Plastics Corporation, Texas and USA for Toyo India Ltd.
- 40MLD Tertiary Treatment Plant at IT park Industrial Area Near Devanahalli, Bangalore
- Structural design of CHP package for NTPC SIPAT-I (2x600MW) & SIPAT-II (3x660MW) Thermal Power Plant

And many more.....
